### In-Person Refresher & Annual Refresher Training Requirements

Please log into the PI Information Database at: <https://half-life.rutgers.edu/piinfo5/> and click on the link for "Online Refresher Training" to satisfy your 2012 refresher training requirement. Most users take their training in the 4th quarter of the year, so chances are, you are due for training. If you aren't sure, you can log into the database and see when you last took training.

Most Rutgers personnel will be able to log into the database with their Net ID and the password associated with it. RWJMS personnel were issued ID's and passwords last year. If you don't remember your ID or password, please feel free to email Deborah Hrabinski at [dhrabinski@aps.rutgers.edu](mailto:dhrabinski@aps.rutgers.edu) or click on the "Guest Accounts" link on the PI Information Database website.

Additionally there are in-person refresher training sessions scheduled for those that prefer in-person training and for those labs who have received a major Notice of Violation in the past year. Those Authorees and their Rad Workers are required to take in-person training and will not be able to access the online training. A separate reminder email will go to these labs.

If you have any questions, please contact Deborah at the above email address or at 848-445-2550.
